Amendment XXX.

(Amendment XXVIII and XXIX are reserved for the People's Amendments.)

Child Life

Section 1.

- (i) A minor must not be removed from where they live except for a warranted and substantially believable concern for their safety, having made to wait supervised until verified or resolved, or for compelling evidence of the same. ~~However~~ Likewise, freedom of a social worker, clergy, close friend or family member to take reasonably extraordinary measures to *register and* preserve a *defenseless child or disabled person*, if it is believed their life or health may be in peril, on their behalf and for their benefit, may seek legal recourse for restraint, restitution, and damages of anyone who may threaten, abduct, assault, or attack the *child life*, whether across any border or boundary, shall not be abridged, infringed or denied;
- (ii) Any research or experimentation to be performed on children, at any stage of life, ~~must provide~~ requires the full and honest disclosure to their parents or legal guardians, with revocable consent and without statute of limitations, and pharmaceutical companies must test for abnormalities through two years trials prior to widespread public release to minors, except for immediate treatment needed for life threatening illness, vital organ or brain disease or damage;
- (iii) Harvesting or use of *synthesized protein with any traceable amount of metals, diseased pets,* and human fetal or embryonic organs, tissue, or cells shall cease, *which* may only be tested painlessly, harmlessly, and kindly ~~for the existence of a soul~~ before given a fitting burial for any unused that may remain. Umbilical cord blood stem cell development, research and cataloguing shall be funded using any existing stem cell program aid or as government sees fit as subject to the public, and set aside $\frac{1}{3}$ of every umbilical sample for each of the following groups: future needs for the family of the child, medical laboratories, and cure for disease;
- (iv) No medical practice may be forced upon the unwilling;

Child Justice

Section 2.

- (i) No minor child shall ever be economically or socially exploited, ~~or~~ and no unwed minor shall be required to secure gainful employment, but *any* benefits *carryover* upon change in status;
- (ii) Minors ~~children~~ have the right to visit or reside with ~~their~~ parent(s) of their choosing when parents have gone separate paths, provided such contact is beneficial, healthy, mutual, and generally stable ~~provided exercise of this right would not result in abuse or neglect~~;
- (iii) The courts *may* not issue punishment for "statutory rape" cases where a pre-existing consent occurred while yet minors. Minors have the right to reaffirm any consensual relations, as common law marriage, upon their partner of an age less than three and three quarter years difference becoming an adult. Each head of household over a child-adult couple has equal *claim* to see them marry. *If* one may be pregnant, *she* has the right to marry the child's father. Otherwise, ~~the right of intending spouses to marry~~ all underage marriages shall ~~not~~ only be ~~infringed~~ affirmed with by ~~free~~ full consent and willingness of the minor, ~~except where consent may be contested by their heads of household for reason of undue influence or safety~~;

Section 3.

- (i) The Legislative Branch shall have the concurrent power to support ~~the provisions of this~~ Amendment by appropriate legislation and the Executive shall ~~enforce~~ it, as is appropriate; and,
- (ii) This Amendment shall be made law and enforceable unto as many governments as ratifies it.

Amendment XXXI.

Equitable Health

Section 1.

- (i) Prenatal consults shall advise parents on amino acids (simple proteins) needed for breast feeding, proper neck support, *importance of unabashed father's love*, and New Parent Rights;
- (ii) The right of the people to receive the highest attainable standard of physical and mental health through comprehensive and prompt service and attention for stillbirth and infant mortality reduction, healthy child development, hygiene and care, and the choice of treatments, methods, and practices for the prevention, treatment and control of ailments, epidemics, endemics, maladies, and occupational hazards, shall not be infringed. No infirmity, sickness, or disease shall ever be considered or labeled as "genetic", except that its genome has been traced back at least three generations and there are no other potential causes. Water will be free of harm;
- (iii) All pharmaceutical drug companies shall produce and supply only those vaccination and immunization products for minors in which are free of any neurotoxin, or similar-acting chemical base, and no injection after 1987 shall ever be added to the protocol, except as an individual or epidemic may require according to medical survey or blood test. Rubella, Mumps, and Measles (MMR) immunization shall be administered separately according to the Defeat Autism Now protocol. Pharmaceutical companies shall pay for known therapies, such as DMPS chelation, from any profits, grants, or subsidies for every alternative therapy for children born since 1987 affected by Thimerisol, disease or damage to the brain caused by pharmacology or industry, without passing the cost onto clinics, hospitals, consumers or patients. Amalgama in tooth fillings may only be used for the mid- to back teeth, unless composite filings specifically fail;
- (iv) No pharmaceutical, hospital, clinic, or doctor may ever promote, provide, offer, or sell harm, except where sufficient technology or ability does not exist and no alternative can be fashioned. Existing treatments, medicines, and drugs shall be affixed with large red warning labels notifying the patient if the treatment or product in any way compromises the immune system, creates *repeat damage or* maladies of the vital organs, or other such harm, and the patient of such has the right to be educated on and ~~expand the definition of medical care~~ to ~~include~~ receive any alternative treatment ~~and~~ or medical service that may be in existence or request one to be made. Any chemical, remedy or treatment to the reproductive system *not intended by the user* to disrupt the full and natural pregnancy, are abolished, except as may be provided *by the courts, as may be prohibited*, for disturbed patients with known self-inflictive or destructive behavior, or the like;
- (v) Every medicine, health remedy and therapy shall be labeled conspicuously for that product or service according to its propensity to treat or cure, and in lieu of and superceding any requirement of law that would otherwise label any ability "to diagnose, treat or cure", as follows: Antibodies & Immune System Defense (Category A), Bacterial Infection & Topical Anti-septic (Category B), Cell Tissue Frailty & Damage Repair (Category C), Deficiency or Supplements Containing Vitamins (Category D), Electrical & Neurological (Category E), and Pharmacology & Masking of Symptoms (Category F), General Treatment (Category G), and Hospitalization or Quarantine (Category H), and others as Congress may impose, *all no less than full disclosure*;
- (vi) Pharmaceutical companies and health care product and equipment manufacturers shall share any technology or method that negates harm and will owe the owner of the technology or method ten percent royalty on such profits proportionate to inclusion of the technology or method;
- (vii) Market strategies to entice repeat customers for pharmaceuticals, medicinal products or health care are prohibited. Representatives of pharmaceuticals shall only provide advice and training and not ever offer or promote the sale of pharmaceuticals, except to answer a client what may be commercially available. Generic drugs shall be sold to Medicaid, Medicare, and Social

Security recipients regardless of origin, if such meets laboratory standards made by law, and new pharmaceuticals shall have twice the patent life as preceding law. Deductibles for domestic prescriptions, or the cost of their mineral or herbal remedy counterpart, regardless of perceived benefit if desired or requested, shall be subsidized for Social Security and Welfare recipients on Medicare or Medicaid with over 3 drug purchases at 20% of such cost, *including* their care for catastrophic physical injury. No sale may restrict any vitamin or herb except narcotics or toxins;

(viii) Pharmaceuticals, and markets known to similarly cause detriment to a multitude of lives or the planet by their products, operations, or strategies, such as mining, drilling, fossil-fuel *supply*, chemicals, pesticides, energy, and fuel, and water, shall not be permitted to ever lobby, seek aid of lawmakers, *neither shall they* be exempt from antitrust laws or scrutiny, as restitution whenever they have not themselves sought to act equitably, except to restrain others *without retaliation* from causing detriment to equipment or unwarranted sabotage of their operations;

(ix) The "~~Medicare for All~~" Whitehouse shall ~~negotiate~~ award prices ~~of~~ for pharmaceuticals ~~universally~~ proportionate to their effectiveness in application and reduction of complications, made affordable, capped at cost plus 15%. Trials of medical supplies and pharmaceuticals may only be administered in order of the most effective with the least amount of side effects for that patient's temperament, when made known. The Food and Drug Administration shall not receive any contribution-based lobbying but reasonably perform quick review of non-pharmaceutical type treatments and products, such as non-petroleum or plant-based solutions and salves;

(x) *Any person has* the freedom to join, skip, or change their medical insurance every quarter year. "~~Medicare~~ Medical Insurance for ~~All~~ Everyone Who Wants" ~~or similar single-payer~~ community-bundled ~~system~~ or government facilitated pool *shall be* made affordable for the upper poor and lower middle-class, to meet medical needs of all gainfully employed people not rich or wealthy. No authorized adult will be made to refile medical insurance if no change in status. Pre-existing conditions and indigents are made un-deniable for immediate coverage, at no more than the total cost for fully treating that particular condition or emergency care, whose payments may be spread across 30 years, through income-based deductibles or payment plan, without default or penalty unless payment is 95 days late. The only added fee due then shall be non-compounded interest using the most recent cost of living rate. Such with the exception that tax revenue primarily from agri-business will be specifically allocated for uninsured immigrants, and elective services ~~beyond Medicare~~ for unnecessary cosmetic and absolutely frivolous coverage may be privately financed on an individual basis. Agricultural, outdoor product TMTD/Thiram is illegal;

(xi) Public health care facilities and special clinics, whether veteran or civilian, shall adhere to strict observance of clean facilities, building codes, sufficient staff and supplies, and operational equipment made available to all ~~persons~~ patients or clients ~~based on~~ according to ~~medical~~ every need. Within five years from the effective date of this Amendment, hospitals having equipment with high energy demand, requiring off-peak usage, will invest in an approved fusion generator. Veteran hospital access and disability approval time shall be reduced by supplementing staff with Gesundheit! Institute paid internships or similar program throughout veterans hospitals. Hospitals shall promote safety training when including duty rotation of medical personnel, and shall reduce fatigue by making shift rotation occur less than 3 times monthly;

(xii) Common medication order errors and preventable reactions to medication will be reduced by providing grants for bar code equipment and accurate, easy-to-use pharmacy training manuals;

(xiii) Doctors *actively* reduce liability and the ordering of unnecessary medical procedures and other defensive medicine practices by advising patients and declaring in writing what additional clinical services would be more than what the doctor believes is necessary. If *one* also prescribes what symptoms to look for in the event the doctor may be wrong, the patient shall only be billed

- if specifically requests such additional services and affixes their signature;
- (xiv) Malpractice and wrongful death suits shall otherwise be capped at 330% of injured person's Potential Income Loss Limit to compensate malpractice, punitive, and cursory damages for loss of work and medical treatments. Attorneys shall pay for opposing lawyer's fees and court costs when instigating bullying-like tactics or filing a malpractice case determined to be frivolous;
 - (xv) All hospital waiting rooms and non-biohazard patient-exposed equipment not already being cleaned regularly *will* be scheduled to be disinfected at least semi-monthly or before use, chairs and the walls behind them periodically, as product recommended, with parasitic removal agent gentle to vital organs or homeopathic. All medical staff shall be trained for bioterror symptoms and be able to coordinate such drills with Centers for Disease Control (CDC). CDC *shall* define an organism as parasitic if there exists such possibility under certain conditions, like collembola;
 - (xvi) Patients must be advised on the type of procedure and breakdown of costs. Deep cleaning dental work shall be performed no sooner than two and a half years apart. Postponement tactics by health care providers, health insurance companies, and (counter-) suits of negligence over resulting injury or complication shall incur a *de facto* \$25 million judgment (2008 currency base year) for each incident without the necessity of wrongful death or other process of time;
 - (xvii) Medical practitioners shall *fully* disclose publicly known alternative treatments, however, the malpractice insurance provider *need* not be liable for such treatments available only from specialty clinics. Dr. D. Tobin Watkinson's method of bio-terrain analysis and recalibration of bio-impedance (human body system adjustment) shall be supported in all hospitals nationwide, of which, shall render 10% of related profits from such procedures to his clinical practice;
 - (xviii) Worldwide demand for used hospital equipment will be encouraged by incentives that may be proposed by government to pass on technological advances to non-profit groups and third world countries in which stimulate supply of expensive machinery to drive down prices;
 - (xix) No insurance settlement *offer* may *discount* an injury that does not immediately show. Congress may set time intervals to limit such when inclusive to $1^{5/7}$ standard deviation from mean. Insurance providers and hospitals shall pass $1/3$ of the savings gained by these measures *herein* producing a savings onto patients, proportionate to the percentage of reduction in malpractice awards and "defensive" services enacted by the preceding subsections;
 - (xx) No pharmacology may form repeat consumers, nor foods be made to foster cravings or maladies;
 - (xxi) The public shall be informed of any medicinal application, more gentle uses, *and alternatives*, for otherwise ecologically unfriendly chemical and microbial treatment products. Chemical products shall be least toxic necessary to function for any purpose of the consumer, without any volatile organic compound or made inert when in combination, diluted, or dried;
 - (xxii) All plastics, including P.C.T. and HDPE, shall be made recyclable, biodegradable, and non-phthalate, without harmful traces remaining such as in contact with salt-water or stomach acid;
 - (xxiii) Persistent Organic Pollutants, such as DDT, PAH, PCB, toxic food coloring, are abolished;

Nutrition Choice

Section 2.

- (i) The right of the consumer and patient to access and be advised on all aspects and manner of nutrition, bio-chemistry of the body, and the effects of various foods, shall not be infringed;
- (ii) Within one year of the effective date of this Amendment, all animals for *consumption and fish* in international waters are subject to equitable distribution of world food supplies in relation to need and in proportion to a sustainable supply, and no shelf may be stocked with more than two and three-fifths times their three-to-five year average sales for that date, during any given week for retailers, or given season for wholesalers, and fishermen shall track and radio-in the scale of each catch and be notified of any overage while at sea, and fined at port accordingly;

(iii) No rights or freedoms of the consumer or food store for the development and utilization or conservation of natural resources, reforming application of efficient agrarian systems and methods, and by making full use of whatever technical, scientific knowledge know-how or breakthrough that may be sustainable by disseminating knowledge of the principles of nutrition shall ever be denied abridged, and no compound may harm, in such a way as to achieve the most efficient whether through improved methods of manufacture, production, or distribution of food;

(iv) No product label or advertisement may use deceptive practices, such as the modeling of unrealistic results or expressing words *kin to* "genuine", "original", "pure", "smart", or "value" to describe or label a product or service, except to refer to and bring attention to its branding or trade name of another name, neither use any percentage to describe a product or service not accurate within 5% variance, except as may be unattainable by reason of limited technology;

(v) All genetically modified drugs, feeds, foods, formulas, mixtures, substances, organisms, plants ("GMO") and any kind of product that is taken orally or inserted in a bodily orifice in which could be harmful to a child person or ecology, require complete, fully-transparent federal and independent oversight of the testing and operations conducted by the producers of such, including full reporting on and publication of all findings to the People, and its products be separated from ecology and general food population and organic grown, affixed with mandatory conspicuous warning labels notifying the consumer of its intended purpose and risks of results;

(vi) No GMO, or their component parts, shall ever be made, patented, used, displayed, or sold without having first been produced in a controlled environment, tested for, yet destroyed upon abnormalities, born of fourth generation subjects and onto three generations of a sample user population that knowingly and willingly participate, and tracked for twenty years to life;

(vii) No GMO for application, consumption, intravenous injection, that has not been tested according to the preceding subsections, found harmful, or seed form that does not primarily benefit consumer and user, shall ever be made, used, displayed, given, sold, or ever brought onto another Continent from its origin. No tobacco given chemicals as additive, or toxin, may be sold;

(viii) Records for the purity of organic foods shall be tracked on each food label, from supplier to seller. Coloring pigments and cotton Textiles from foreign soil must apply food-grade hydrogen peroxide of sufficient strength or similar all-natural pesticide before entering ports or customs;

(ix) Toxic cookware, such as petrol-based plastics and other non-stick chemical coatings for use while cooking, or by food service and restaurants, is abolished. Seniors shall be educated on the effects of B vitamin degradation from microwaved foods and the danger of insufficient heart-calming electrolytes, such as manganese, and overuse of niacin. MSG, and similar compounds, shall not exist in foods sold in composite or by restaurants, but may only be sold to individuals as a separate additive. Hormonal disruptors, such as Bisphenol A, methionine inhibitors, such as cyanide (in cobalamin), and neonicotinoids, are forever banned from exposure such as foods and its handling, food storage, bottling, bags, receipts, toys. Sugars not broke down in the body nor digestible (unless naturally occurring), such starches, PGPR, and yeast as an additive, are illegal;

Section 3.

- (i) The Legislative Branch shall have the concurrent power to support this Amendment by appropriate legislation and the People shall enforce it through the assistance of government; and,
- (ii) This Amendment shall be made law and enforceable unto as many governments as ratifies it.

Amendment XXXII.

Special Education

Section 1.

- (i) Neglect of educational care for Special Education students is a crime against the state and the

parents. If a learning deficit cannot be helped by school district resources and programs, the district may not deny the use of outside services for any reason, despite funding source;

(ii) Parents of Special Education students have the right to an advocate, whether or not parents can afford one, and to a listing of all services within the spectrum of the student's disability and educational needs, by whatever appropriate providers that happen to be the closest, regardless of boundary or distance. Students exhibiting or scoring greater than $\frac{3}{5}$ of known features for a particular disability, shall be identified as such, or having like behaviors. Any misleading identification or misdirection of a student's disability by a school or district will incur retroactive services, regardless of source or cost, deducted from superintendent's salary, across five years;

(iii) Individualized Education Plan goals, and school district programs being offered, shall not ever be tied to Free and Appropriate Public Education (FAPE), but to the individual deficits of the student. Any denial or substitution in whole or part of special education services will render school's rights inert. Punitive damages shall apply to school districts that harass parents or deny services through incomplete goals, inaccurate tests, faulty conclusions of FAPE, *or the like*;

(iv) School districts shall have a different funding basis and commit additional resources based on independent agency testing standards for its programs that challenge and nurture Special Education students to learn. There shall be 5 categories of Public Educational Enrollment in concert with a scale for its funding, accordingly: General Education Student (Standard rate), General Education Student + Attention / Concentration / Lack of Desire to Learn (Standard Student Rate + 1 outside program as needed), Any Education Student + Any Deficit affecting learning (Standard Student Rate + up to 6 programs under \$15,000.00 total per year), Special Education Student + Moderate Learning Deficit (Standard Student Rate + up to 9 programs under \$30,000.00 total per year), Special Education Student + Severe Learning Deficit (Standard Student Rate + up to 12 programs under \$45,000.00 total per year), using 2008 as base year;

(v) Special needs and disadvantaged students shall be provided with audio / visual learning alternatives when needed and states will be given rebates for Virtual Classrooms. Such students shall not ever to their detriment be given grade inflation (grading on a curve) or applicable age-inappropriate curriculum, as per scores on a reasonably current Vineland analysis, but be given intermediary learning bridges to comprehend 3rd and 6th grade abstract language concepts;

Education

Section 2.

Students will have developed artistic literacy in music, phonics, and **American** literature. **Classical, preparatory, and higher schooling** education will encompass structure *borrowing* Dorothy Sayers' Trivium. Homework will not exceed $\frac{2}{3}$ full load and $\frac{1}{2}$ of time. Each Academic Mission will excite concept imagery, *curiosity* and expressive / receptive language in age appropriate application: 1st graders will know science of electricity. 4th graders will identify mathematical angles and decimals. 6th graders will spell words like "conscious" and "separate". 7th graders will distinguish adagio from allegro in music. 8th graders will know the Articles and Amendments of the U.S Constitution *and the People's Amendments and Bill of Equitable Deeds*, *how the government and federal power was impeached*. 9th graders and university students shall compare evolution to creation as philosophies, and the question of origins shall be addressed objectively with the view to develop critical thinking skills by objectively examining science from conflicting viewpoints. 10th graders will write essays *like* on Kevin Costner's "13 Days" about the Cuban Missile Crisis. 12th graders will **foster respect for** a business language using words with phonetically common roots in Latin, Germanic, Cyrillic, Asian, or tribal speech (as part of a more global dialect to be proposed at the U.N.). College preparatory students should be able to fully explain the difference and implications between Keynesian and Austrian economics, and the pros and cons of gold-backed, FIAT, and controlled economies. All universities shall offer observation-based science courses through the college of letters as a liberal arts program;

(vi) All high school and college-age students must complete a course on customer service, coping skills, and modeling of learning disabilities in the classroom. Any member of the community may contribute to the educational experience of any grade level in the public school and colleges, teaching any appropriate curriculum in the time given, as long as a representative of the opposing view is given equal presentation time and rebuttal, but it is prohibited to permit a singular view;

(vii) All students without disabilities must maintain at least 2.85 GPA to participate in an extracurricular activity, and manipulative grade level passage practices, like accepting late homework for no reason, are *discouraged*. Soda machines shall be **made** fitted with shut-off timers that makes carbonated beverages inaccessible during common primary class time, and the sale to minors on campus of sports drinks that contain hormones or questionably excessive nutrients are prohibited. High school after-school activities and programs that provide character building and reduce mischief, where participation in vigorous physical activities encourage cooperative play that exercises team character and sportsmanship, shall be shall be provided for, *weather permitting*. All extra-curricular activities and programs shall notify parents promptly of an absence. Public schools will provide safe environments to study after school and enforce

school violence protections and procedures. Faculty and staff will identify signs of suicide and aggression and be trained in its handling. Tabloid shows will coach coping and appropriate acts;

(viii) Parents may share mutual responsibility and active decision-making with the school board and teachers in finances and curriculum. Parents shall be provided *access to* answer keys and recommended bedtimes and age appropriate nutrition guidelines and personal skills benchmarks. Teachers have the freedom to home visits at reasonable times for genuine areas of concern and parents have the freedom to see their child tutored at home by *an* agency of their choice. Schools shall inform parents of all known greater local area educational options and programs;

(ix) All running public school buses shall be made to run on bio-diesel within five years of the effective date of this Amendment, whereby its fuel production equipment shall be provided by non-qualifying grants proportionate to all who apply in which might produce *small or* locally;

(x) Grants *will* provide for education majors, *gifted students*, Sons of the Founding Families, *and non-residents* to states that *do not* provide low tuitions. Colleges will *support workstudy* with community *business* for course credit. *Masters recipients* may apply to any state for credentials;

(xi) Student loans must not be made to default, but encourage ability to pay. All student loans will have *an overlapping* 35 day payment cycle with a grace period for hardship or emergency. *Borrower Defense* is made law. Technical trade schools programs must be accepted by colleges and universities for accreditation to transfer applicable credits for coursework, and a mechanism be put into effect where students can earn partial course credit for the part that is incomplete;

(xii) To ensure enrollment and encourage return travel to *non-resident* origin, student visas shall be renewable and campus work provided. *Student Gainful Employment* provisions are made law;

(xiii) All textbooks greater than 1 inch thick (2.5 cm) or 10 inches high or long (25.5 cm) shall be made of lightweight material. *Sex education shall be balanced in every manner, having resource material and instruction lending to understanding of biology and physiology to present personal genitalia awareness and its care, medically appropriate illustration of anatomy, model its correct use on an anatomical dissection, clinical effects of attraction or arousal mechanisms, and survey opposite gender's needs and views, but not acclimatize to stimuli or to practice on any given thing;*

Section 3.

- (i) The Legislative Branch shall have the concurrent power to support *the provisions of this* Amendment by appropriate legislation, the Commonwealths and Territories shall *enforce* it; and,
- (ii) This Amendment shall be made law and enforceable unto as many governments as ratifies it.

Amendment XXXIII.

- (iv) An individual's personal and financial data shall be considered protected intellectual property, and is not to be collected, transferred or removed tracked without paper or electronic warrant or without expressed consent, and shall not ever be a requirement to access electronic programs, except to verify age, membership, or pay for services or products rendered, and shall

be wholly purged or precisely modified as per the request of the individual it is associated with. A person's image, creative work is their own; a company's program, system are its property;

(v) New treaties, laws and regulations will negotiate and ensure that access to the internet will remain uncensored for all people in the world to use and express themselves without government or corporate interference, except for that media in which may be inappropriate for all audiences as may be *determined by voters*. Online encyclopedias must not censor by deletion, but afford inclusion if unverifiable facts, or first person narrative is sufficient to uncover or lead to verification, and provide a direct venue for not as noteworthy news, such as sufficiently substantial to find in a reputable newsletter. No electronic implant will identify or record;

(vi) No entrapment, malicious automated code, or pervasive inundation of information or images shall ever be used to inform or determine cyber criminal activity or behavior, or desensitize. Software integrity is a right. *Upon just cause*, live undercover officers *may* document actual use that is preceded or sifted by electronic red flags and warrants for clear and willful specific intent;

(vii) Electronic copyright shall not ever have been considered to be infringed upon for making one moveable copy. Whenafter a user has specifically refused every opportunity to modify an allowable electronic copy intended for reapplication, according to the rule of being "sufficiently different", one *may* pay a set nominal fee for download upon use or discard the file. It is the right of a consumer to have the option to download any *third party software, security, or update*, and to be advised of its actual specific contents, without *install*, recrimination or malice;

(viii) No app or default may have user permission except user revocable, accessible, and understood. All electronics and software default settings must be user-changeable by a visual graphics interface, and all no longer supported by their manufacturer must make available and store online an easily accessible copy of each update revision for download for as long as users desire them;

(ix) *Predatory, compulsory entrapment is illegal*, government *is liable, and related* personal costs *are owed*. Evidence gathered by electronic means *that* identifies possible criminal activities and potential threats *shall* be verified by agents upon warrant, but where also the nature and cause of the accusation must then be presented to the user as cautions and warnings to be remedied;

(x) No court shall ever not be understanding of persons who may be autistic, or who may display an inability to cope or understand directions of the court, for accommodations, and to enter pleas of exception or extenuating circumstance without the necessity of guilt. Persons with disability may use a smart device for the purpose of defense, presenting evidence, and calling witnesses;

(xi) An *accused* has the right to *equal* just and impartial legal representation, and may, at any time, request a change of attorney or judge by reason of such, and may request *publicly-funded* attorney services including investigatory costs, *at every stage* whenever that right is in peril *or* warranted by evidence, duress, or dispute. No *representative*, attorney may offer substantially different course or substance to what is sought in legislation or representation unless affected parties understands and gives consent. Withholding usable evidence is criminal fabrication;

(xii) For crimes committed against the state, or as in the case of public danger or national emergency, in which an individual was violated, the person violated may seek compensation for damages as to consequential inconvenience. No prisoner is deserving of mistreatment or attack;

(xiii) Those convicted of a crime, upon *any motion inclusive and processed in order* of compelling information as to incentivized informants, inadequate defense, misapplication of forensic science, false confessions or admissions, eyewitness misidentification, or *government misconduct for the same*, have the right to *immediate release into the custody and* travel with a *U.S. Marshall peace officer and may* assist in establishing their innocence and DNA testing, and the "preponderance of innocence" shall be accounted as new evidence, and upon substantial evidence contrary to their conviction be immediately forgiven of their crime *and restored fully*

into society. Parolees have right to improve their circumstances as alternate locale allows;

(xiv) No person sentenced to death shall ever have the sentence carried out, in which has not been given every reasonable opportunity to exhaust a pardon, commutation, or doubt, excluding overwhelming and unrepentant malice of committed insanity or pervasive aggression;

(xv) Alternatives to imprisonment ~~for~~ shall *exist for* non-violent and certain first-time offenders as may be defined. Public money supporting incarceration of such offenders will be directed to extensive programs aimed at drug rehabilitation, public service, and treatment for the mentally ill. Arrest may be resisted on grounds of defense of the Constitution, or for any related purpose;

(xvi) The justice system shall focus on rehabilitation of prisoners and protection of the public rather than the vague and subjective concept of "punishment", *as follows*: convicts shall be provided with vocational training, and upon exiting prison on *parole*, be supplied vouchers for food, transportation, lodging and an allowance offered through a suitable or industrial job;

(xvii) ~~Decriminalize drug possession and use in all U.S. jurisdictions and~~ Addiction of illicit drugs, along with its possession, shall be treated by law as a medical problem ~~rather than a~~ wholly separate of any other criminal ~~one~~ activity. ~~Abolish the DEA and redirect its resources to other purposes.~~ A specialized health program shall be made available for drug users to be administered decreasing prescriptions for certain illicit drugs in an effort to reduce dependency;

(xviii) Non-mind altering, non-hallucinogenic, non-addictive forms or combinations of ~~marijuana~~ illicit drugs shall be ~~legalized, taxed, and regulated~~ for medical and ~~personal~~ permitted use for adults. Similar versions of other drugs, including marijuana and as Congress shall permit, shall be ~~treated~~ comparably to the treatment of products that contain alcohol. Prescribed dosages of illicit drugs for medicinal purposes are permitted when a user is immobile or confined;

(xix) The right of the people to have *the* state monitor and enforce the restriction of sale or use of high speed or high powered armaments and weapons to the mentally ill, gangs, and criminals shall not be infringed, and parents of children living with them, of any age, who do not store firearms they own as unloaded and in a locked device, case, or safe and separate from ammunition when not in their possession, except as may be permitted in a shooting range or designated and posted practice area, shall be liable for \$25,000 (using 2008 as a base year), *up to year* imprisonment, or both, in addition to any charges of manslaughter, or other resulting crimes that may be brought, *but punishment shall not exceed ability to pay or care for the household*;

(xx) Safety course certificate, *military ID*, or background check shall be required for *any* projectile weapon use, ~~yet~~, ~~purchases made at gun shows may substitute any establishment herein requiring certificate of safety~~, such as shooting range membership, or ~~game permit~~;

(xxi) Within one year of the effective date of this Amendment, all new guns made or sold ~~in the United States~~ shall have one of five standardized safety devices. No city may forbid residential or personal fireworks, except that nearest alternate location is designated and accessible;

(xxii) Regulatory oversight ~~and de-militarization~~ of police operations shall be ~~established~~ through the creation *or implementation* of a fully transparent investigatory organization;

(xxiii) Officers shall be trained to recognize the signs of autistic-like behaviors when confronting an uncooperative individual. No law enforcement may respond to unaided or unintentional uncooperation, as a sole offense, nor remove belongings of homeless unless to secure, without 10 months unpaid suspension or reassignment in trafficking, collusion, or discrimination;

(xxiv) All law enforcement will be equally conservative and liberal, declared unfit upon paranoia. No officer may assign an informant but so register for defined scope, duration, and restitution;

(xxv) Rookie peace officers, exempting undercover, shall be disarmed of fatal side armaments and be restricted to and issued less lethal and non-projectile less-lethal weapons for routine patrols, or rubber bullets under direct orders only. All officers shall be required to undergo

training to be tolerant of those who do not share their ideals or understanding, whether disadvantaged by disability, special incident or place, and no officer shall ever discharge a weapon with intent to kill, or be trained to do so, unless threat is absolute and disarming fails; (xxvi) Crime shall be equally **newsworthy** between ethnic groups to extent possible; *no portrayal of gangs or pranks*. Rookie *police are* restricted from racial profiling before undergoing racial situation ethics assessment and evaluation, and profiling shall only be used when locating and apprehending known criminals with unknown identities, or terrorists, and shall otherwise follow Representative Conyers' "End Profiling" bill, as subject to this Constitution. Surveillance for information gathering without due process or for initiating punitive harassment is a High Crime; (xxvii) Thieves and assailants who trespass shall enter a property at their own risk, and will only be able to file suit against the property owner if such peril is unmitigatable and unwarranted; (xxviii) White-collar crime shall be tracked **down** through the use of aggressive enforcement and prosecution. Sentencing for such theft *will* be proportionate to amount stolen and *those* affected;

National Security

Section 2.

- (i) **U.S.** *This country* protects and defends Israel and welcomes Palestinians to share in Israel's government if agreeable; it is the right of every people to return to the land of their fathers, have sovereign defensible borders, and live with the freedom to see lasting peace and evident prosperity reign. Secret *services* will protect candidates of nations desiring *democracy*, to vote;

(xxiii) ~~America~~ *This nation* shall take immediate action when called upon to save lives, and whenever a complex military decision cannot easily be made in which civilians are being targeted or in harm's way, where diplomatic relations or other international consequences are at stake, a decision-tree strategy shall be employed by the President that contains calculated course of action and timing of both military and political nature in which saves the most lives while ensuring the process for the best outcome. The World Health Organization shall be given security escort as needed to ensure diplomatic immunity and safety around armed conflict. ~~America~~ *this nation* shall invest in new technology that accomplishes these aims;

(xxiv) Secret service and Whitehouse staff cannot be called to testify against the President and his family, except for egregious acts or treason against the people or the Constitution;

(xxv) The Secretary of State may run in a federal election while in office, subject to conflict of interest rules and prioritization compliance as the Public Assembly may impose;

Section 3.

- (i) The Legislative Branch shall have the concurrent power to support the provisions of this Amendment by appropriate legislation and the Executive shall enforce it, as is appropriate; and,
- (ii) This Amendment shall be made law and enforceable unto as many governments as ratifies it.

Amendment XXXIX.

Disaster & Environment

Section 1.

- (i) The Environmental Protection Agency, and other *protective agencies, a right of the people, are granted* the power to regulate and penalize business entities that intentionally or recklessly bring harm to the environment or the people. Fines, penalties, and/or criminal charges shall be *measured by* the full impact of such *damages* incurred upon the environment and economy, of which, such companies shall reserve an amount proportionate to the greater of the amount of product extracted or expelled, calculated relative to the cost of economic and environmental damage caused by the BP deep ocean spill in the Gulf of Mexico in current dollars, ~~taking into consideration the lasting impact brought upon the environment~~ to fund the bioremediation and full eco-friendly clean-up and economic disparity restoration of such damage, and all executive and shareholder pay and distributions of such companies shall be suspended for one year from date of such damage and all profits for that year shall be forfeit to the government and paid to the taxpayer in the form of refund and relief, which is the right of the Earth and its people;
- (ii) The right of the people to ~~demand~~ require *sustainable* conservation of natural resources, collection and ~~processing~~ utilization of all recyclable materials for development and production of competitive safe, non-toxic, reusable, and carbon neutral or negative sources of renewable energy and biofuels free of fossil-fuels, such as economically sustainable biofuels, green solar, aerodynamic wind, safe geothermal, and responsible thermonuclear fusion, and the right of small business to receive a capable amount of the work, for the reduction ~~the amount~~ of carbon dioxide in the atmosphere to below ~~the safe upper limit~~ of 350 parts per million, funded by levying a tax on those energy sources that produce carbon emissions, shall not be infringed or denied, except where otherwise exists no sufficient or applicable infrastructure or technology, and extraordinary circumstances do not permit, such as no solution can be fashioned or economic thresholds are so extreme as to exclude the most capable, then corporations and organizations shall act upon the next most ecologically reasonable option available. Likewise no cancer causing chemical is legal;
- (iii) Invasive resource technologies, such as drilling, fracking, and mining, shall operate in a manner to keep wildlife and people from harm, restoring the natural balance ~~when as complete~~. The right of the people to severely restrict the commercialization of mining and harvesting of natural resources of air, land or waters, dumping into the same, or to ~~require safe, responsible environmental practices by business entities and persons within the parks~~, wherever there may be public concern over general endangerment, environmental disaster, ~~in~~ preservation of our public lands and parks, or the like, shall not be infringed or denied. As part of the restitution owed the people, the clean-up for untraceable dumping, releasing, spewing or spilling of *any* significantly unhealthy amount of toxic *material or substance* will be charged to the most probable and capable in the region and increased annually, proportionate to their revenue at frozen prices, in addition to Subsection (i) provisions, until the industry responsible stops or clean-up is complete;
- (iv) 1% Of the national budget shall be reserved for Disaster Relief, not for use by the general fund. The Whitehouse shall maintain a check list of catastrophic or cataclysmic emergency event protocols that maximizes number of lives saved, and develop technologies to achieve such aims;
- (v) During disasters, the agencies supporting a National Preparedness Plan shall coordinate with media to utilize their satellite-capable communications presence on site, distributing satellite phones and disseminating on-air messages, and involve the community and media in such drills. Any situation where emergency responders are called upon, every option will be pursued beginning with solutions most needed and escalated until resolved in order of ascending peril;

- (vi) Volcanic Yellow Hazard Zones, as determined by U.S. Geological Service, shall bear the same zoning policies as ~~U.S.~~ Forest Service designations, and its emergency evacuation protocols shall be authorized and observed after every other hazard zone has been cleared of civilians;
- (vii) *Breakaway* construction along hurricane coastlines shall be of a geo-polymer or cement in a layout able to withstand initial occurrence. Construction shall be inclusive of one-story brick in tornado alleys, or, including gas and water lines, able to withstand 9.5 on the Richter scale and liquefaction in seismic and impact zones, applicable for that region. New construction reliant upon lakes, aquifers, or prone to sinkholes, must replenish any such water use within five years by importing desalinized ocean water. Insurance and interest loans will be discounted or reduced by the same amount of coverage for such construction allowances to be more affordable. ~~New land exposed by receded waters shall be homesteaded with former beach front owner access;~~
- (viii) Every restaurant and public venue shall install waterless urinals and solar-powered dispense devices in their restrooms, and such business shall have an existing appliance replaced every 6 months until conversion is complete. Underground sprinklers, drip lines or waterless grass *is* required of ~~new~~ farms, development, ~~and~~ homes in drought prone areas. No effort may cause dry soil condition. ~~All farming, such as agriculture, aquaculture, or aviculture, shall be sustainable;~~
- (ix) Inorganic mesh, fishing nets, and container bundling, of whatever sort, shall be made with a weave that will break and collapse when snagged, such as ~~eyelids, columns, or perforation;~~

Science

Section 2.

- (i) NASA, or a similar agency, *will* govern all space traffic over ~~American~~ *the nation's* airspace, and ~~U.S.~~ *its* territories. Space crews and such equipment *contain* a microcosm to mirror mission control in triplicate. Laser-guided jet packs, *set* with extendable foot platforms, *will* be used for all EVA maneuvers. ~~All math instruction will have continuity, reminders, compounded examples;~~
- (ii) Shuttles shall ascend and descend on their own non-oxygen based power, preferably using Zero Point Energy electromagnetism. The guideline for warp power capability measurements and design, to include artificial dampeners, will be set to reach Mars in 18 minutes at its closest trajectory. In the event of an electromagnetic outage on a spacecraft, a crystalline or DNA based computing system, capable of reading, storing and executing data, shall be employed;
- (iii) Whenever probing or interacting in a ~~new~~ relatively unknown environment or reserved ecosystem, ~~space~~ the following protocol will be observed: (a) all that can be learned will be learned before risking any measure or type of direct interaction with existing life forms and eco-systems, and then, only in stages; (b) if something resembles being alive, it will be left alone but afforded every respect, except to the extent there is necessary intervention to prevent harm, and only in the least invasive or least damaging manner; (c) lifeless samples, parasites, or contaminates on clothing, supplies, and ship will be avoided until rendered harmless or inert; (d) policies for observation and interaction strategies must include consideration for the physical disposition, relative perspective, and condition of the life forms encountered; and (e) restrain judgment;
- (iv) ~~A peace officer shall accompany any credible person with a cataclysmic claim and shall be granted safe housing if dire or urgent circumstance requires until their claim is validated. This present state and its resources are as a lifeboat and will be used to prevent a catastrophe as long as such goals are congruent, until it is determined which holds a bigger threat, or for as such as cannot be determined, prevent such persons from otherwise affecting events, if desired feasible;~~
- (v) Assuming SETI or similar agency *encounters* a message from space, they shall endeavor to send a message along the same trajectory, facilitating communication through what's known as dot matrix alphabetic typeset, a discernable *sound* using dots, dashes, ellipses and pauses;

Section 3.

- (i) The Legislative Branch shall have the concurrent power to support the provisions of this Amendment by appropriate legislation and the Executive shall enforce it, as is appropriate; and,
- (ii) This Amendment shall be made law and enforceable unto as many governments as ratifies it.

Amendment XXXX.

Public Works

Section 1.

- (i) Included in driver testing for drivers under 21 and seniors over 70 will be: reflexes and response time compensation, strategies for merging with trucks, and "Foot Stuck on Gas" symptoms shall be given preventative "Neutral Gear" safety training. Semi-annual eyesight competency for drivers over 60 and annual driving tests for drivers over age 72 shall be imposed;
- (ii) Instructing drivers of other vehicles while on the road, blocking traffic by excessive braking shall have at least equal liability imposed for any collision or damage. Fines and fees shall be imposed for *extreme* decibel infraction, thrown cigarette butts while *vehicle is* moving, transport of unsecured dogs or trash in open truck beds. No deregulation may hold blameless as a result;
- (iii) At posted-stop intersections (right-sided traffic), the vehicle turning left shall go last when facing on-coming traffic to reduce intersection collisions associated with fatigue and driver error;
- (iv) Signs labeling an "impaired curve" shall be posted wherever the downward slope of the road is opposite to the direction of the curve, and all future road construction shall minimize the degree of the impaired slope as best possible. Mechanics will put diagnostic codes on final bill;
- (v) Every carpool / HOV lane shall be made available for executives who pay \$1,000 monthly for a permit and magnetic decal, or an amount as states may set. A driving permit exclusion may be issued ~~for cell-phone users~~, in which the driver who shows exceptional restraint and precision for low-risk behavior, in an emergency or as a business enterprise, may use a phone while driving;
- (vi) Each lane of every interstate or federal highway shall decrement lane speed control by 10 to 15 mph (15 to 25 kph), starting at 80 mph (130 kph) from the innermost lane working outwards, in all urban populated areas. No loud equipment may operate by residence 'til 9 am but by consent;
- (vii) All interstate and federal highway construction and improvements shall eliminate the ending of lanes by merging, in favor of lanes in which continue in some fashion, where the number of lanes entering a highway or junction equal the number exiting, in a manner so that vehicles do not need to merge. Every highway carpool lane shall open up between ¼ to ½ of a mile (40 ¼% to 80 ½% of a km) from any entrance / exit ramps. Minority contract participation is 12% no less;
- (viii) Land owners are entitled to protection from Eminent Domain clauses under no pretense of blight by having any structures moved to a new lot, billed at cost. Otherwise, with Legislative approval by reason of the "greater-good" and just compensation, an estimation of future need in lieu of representation for transportation projects deemed inevitable shall be imposed. Toll roads shall install License Plate Photo-scanning equipment, including such for use in cooperative and corporation collections. No toll road may exclude on inability to pay or charge more than 1/10 of a dollar per mile. A portion of federal monies garnished from highway land-reclamation shall be set aside for ~~U.S. Army~~ Corp. of Engineers transportation projects, *or the like*;
- (ix) All participating government contractors shall be awarded a percentage of a contract, for as many as have viable products and delivery, or a grant, for as many *qualified* have applied. Every competitive bid shall be awarded in proportion to the amount of their qualified bid *over cost* in ascending order, and *each* shall be granted according to the most promising technology or best business practices in descending order. Minority subcontracts will include Time and Material+5% fee with no retention, no bond except as may be held by participating contractor. No owner or entity may

require retention on current performance. A bond must be sealed to fit work if insufficient collateral;

(x) National railroad standards shall require nation-wide uniform signals to be configured the same, and all rail lines where tracks are passable shall have a separate track for each direction of traffic within five years of the effective date of this Amendment, and cement ties *will* be installed at a *base* rate of 1 tie per track per hour every mile (approx. 1½ km) so as to encourage repairs without issuing orders to slow. Fuel stations must display parent company symbol on signage;

(xi) All ~~American~~ standards and measurements shall be wholly converted to metric, and rounding shall be used for home construction and trades so as to make use of relatively similar sizes, except for tools and measurement devices and that which are required for replacement parts;

(xii) Any measure of corporate welfare for corporations without interest on return is abolished. Agricultural subsidies to farmers that do not produce crops (but in a way that maintains an economic price equilibrium), will be paid only to supplement humanitarian aid or produce Ethanol or non-algae based bio-fuel in a manner where no byproducts enter the *food* market. Coal and nuclear wastes shall be immediately bioremediated using non-fossil fuel techniques, and minimum of 87.5% of *other* fuel and energy for use in ~~the U.S.~~ *this nation* shall come from alternative and renewable non-fossil fuel sources, by ~~six~~ *five* years from the effective date of this Amendment;

(xiii) *Public Assembly* shall set and increment minimum percentage of crop waste *and trash* used in the production of ethanol and bio-fuel. All automakers, domestic and foreign, shall produce in their manufacture flex-fuel or E85 rating in their assembly of all ~~U.S.~~ gasoline cars, by the next 2 assembly cycles. All domestic automakers shall increase their assembly of alternative power cars that run on 3 types of non-fossil fuel renewable energy to 75%, by the next 3 assembly cycles. As many that have such, airports and fuel stations within 1 mile of a highway or expressway in each of the 52 largest cities ~~in America~~ that carry petroleum vehicle fuel products shall convert 1 pump to solely to ethanol blends within one year, and all fuel stations, shall convert to non-fossil fuel substitutes at 3 pumps at all fuel stations within 30 miles of a highway or expressway by three years, and *all but one* pump by five years of the effective date of this Amendment;

(xiv) Assistance shall be given for automobile factories and gas station conversion in the form of loans to retool for environmentally-friendly and fuel-efficient products, plus their research and assembly costs. Government loans shall be provided at Prime + 1% for retooling manufacturing plants, for station modifications, and to repay back any Federal debt. Corporate fleets conversion interest rates shall be 10%, 5%, and 1% for the duration of one, five, and ten years respectively.

(xv) The Legislative Branch shall have the concurrent power to support ~~the provisions of this~~ Section by appropriate legislation, and the Commonwealths and Territories shall ~~enforce~~ it;

Equitable Taxation

Section 2.

- (i) Tax credits and business deductions are ~~eliminated~~ limited to those that reduce the use of governmental aid or that stimulate the economy, and each cannot exceed 10% reduction in tax;
- (ii) No taxpayer-funded corporate bailout shall ever be in the form of a grant, and in no way may the government retain more than two-thirds, and the two-thirds must be applied to national or taxpayer-desired projects or programs when returned, as subject to this Constitution;
